SCREEN & DIGITAL SIGN PRINTING 

2019
SIGN CATALOG
RETAIL CODED

We are a consistently growing company, but there's still a lot for us to learn. One thing you can count on is passion for what we do. We're going to get it right; we're going to make it easy; and we're going to make you more profitable!

Screen Printing

Screen printing is still the most popular method used to produce most political, regulatory, and transportation signs. The vibrant, glossy, screen printed ink creates unmatched visibility for designs using **three or fewer solid colors**. More durable against fading, screen printing is still chosen regularly over the digital printing process.

If you need **at least 50 signs**, consider choosing screen printed signs when available.

- Vibrant inks for unmatched visibility
- Most cost-effective choice for larger orders
- Durable

High Quality Digital Printing

Our digital, full color printing capabilities deliver the high quality products you come to expect from **FireSprint.com**, with fast turnaround times that fit you and your customer's needs.

Full Color Print

- Design Flexibility
- Most cost-effective choice for smaller orders
- No setup fees
- Professional Quality Print

Digital Cutting

- Clean, custom shapes
- Rigid materials
- Vinyl decals
- More cost-effective than die cutting

Contour, Custom Cutting

Clean, precise cuts, on both rigid and flexible material, give you the freedom to be creative and offer products outside of the (standard, sign shop) box. Let your customers stand out with the design flexibility that custom, digital cutting allows.

FAST.

NEXT DAY PRODUCTION
on orders placed *before 3PM*

130z VINYL 1401-D

Perfect and within budget to get any message across. Use them for promoting your business, school, or event. We have seen it all!

180z VINYL 1402-1D & 1402-2D

Durable and will make your message stand out in the crowd. Double Sided Banners are great for roadsides, event entrances, and any other event that has traffic moving multiple ways.

ALL BANNERS INCLUDE

Hemming.
Grommets every 2 to 3 feet.

80z MESH 1403-D

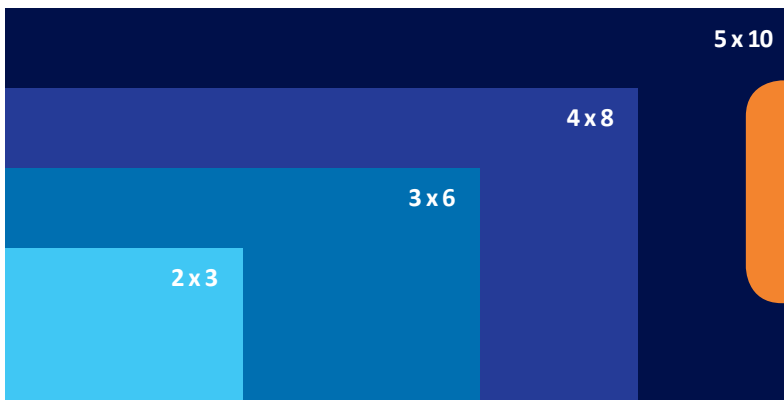

Great for along a fence line. Lightweight. Breezes and sound pass through the openings helping to avoid the "sail" effect you might experience with other banner materials.

120z MESH 1404-D

Great for along a fence line, scaffolding, or other job site applications. With 90/10 visibility, this mesh is eye-catching, but still lightweight with all the advantages of a mesh material.

B. 48x36" Magnetic Receptive Menus

MAGNETIC RECEPTIVE PRODUCTS

Consider making menus, posters, and other regularly changed signage out of our magnetic receptive material. With your first order, you'll need to order it with magnet. Simply peel and stick the adhesive backed magnet to your surface, and then align the magnetic receptive print. When you are ready to change your message, all you need to do is re-order the magnetic receptive, and changeout is a snap!

F. 22x28" Paper Poster

D. 8.5x11" Polystyrene Easel Back Display
(Price is for unassembled displays)

FLOOR GRAPHICS

Our vinyl floor graphics are digitally printed in full color and have a structured matte finish. Easy to apply, reposition, and remove, allowing removability from most common commercial tile floor substrates for up to 6 months under normal exposure conditions. One-step graphics solution for indoor floors and walls and short-term outdoor use on most smooth surfaces. Think of Floor Vinyl when you need quick, effective applications for tradeshow, PoP displays, retail advertisements, or directional graphics.

REAL ESTATE SIGNAGE

Our premium signs are how Real Estate gets sold! Digitally printed full color on 6mm PVC, they come ready to assemble! Simply slip the sign into the included frame. Notched loops hold the sign in place. Four styles to choose from!

Frames are included when you purchase a Real Estate Sign. To purchase frames separately, please contact us!

Two, Single Sided 24x18" Signs

Our Real Estate Frames are made from powder coated steel and feature loops that help hold signs in place without additional hardware. They will work well with 6mm (1/4") PVC and will hold any sign less than 1/4" thick. Most frames include a slot for a 6" tall rider.

YARD SIGNS | DIGITALLY PRINTED | FULL COLOR

Full color digitally printed 4mm corrugated plastic yard signs are an inexpensive way to attract the attention you need. Your signs will be printed directly to the coroplast for good outdoor durability. Vector artwork recommended but not required for Full Color Digital orders.

Reverse Arrow: \$6/art file • Copy Change: \$6/art file • Full Bleed included at no charge! (P)

LARGE YARD SIGNS

LARGE YARD SIGNS

Large corrugated plastic signs are easily seen from near and far! Make an impact! Made of 4mm corrugated plastic, just like their smaller cousins, they're perfect for bus bench ads, or highway campaigns. 1-3 color signs up to 48 x 36" are screen printed. Full color signs are digitally printed. In many cases, we can cut these sizes down to a custom size at no charge! Small quantities of 48 x 48" and smaller can ship FedEx Ground. 48 x 96" signs will need to be freighted. Call for details and options!

BOLLARD SIGNS

Bollard Covers are custom printed with your promotional message. They provide 360 degree visibility with four-sided, 7" panels, and they're shipped flat with an interlocking design, making our bollard covers quick and easy to install right out of the box! Made from durable, economical 4mm corrugated plastic, bollard covers are affordable to change regularly to keep your promotional messages current and relevant. Choose from three heights: 48", 54", and 60"!

Bollard Signs					
48x7" Cover	1	5	10	25	50
2124-48	\$41.67	\$25.00	\$22.50	\$18.33	\$16.67
54x7" Cover	1	5	10	25	50
2124-54	\$66.67	\$56.67	\$50.00	\$48.33	\$45.00
60x7" Cover	1	5	10	25	50
2124-60	\$66.67	\$56.67	\$50.00	\$48.33	\$45.00

All of our bollard covers will fit bollards up to 7" in diameter. Smaller or larger bollard? Contact us for a custom quote! 5R

Specialty Ink Colors

Specialty inks are **NOT** intended for long term outdoor use. Fluorescents will last **less than 30 days** before fading to clear. Additional fees apply to these colors. Recommended for use on Corrugated Plastic only.

Fluorescent Red
Fluorescent Pink
Fluorescent Orange
Fluorescent Chartreuse
Fluorescent Green
Metallic Gold
Metallic Silver

GUILD BUG

We are a member of the Graphic Artists Guild. We can add a Graphic Artists Guild bug to any of our products for a small fee. For more information about who they are and what they do, please visit www.graphicartistsguild.org!

Custom Pantone Matches

Color matches are available for an additional fee on screen printed products. Please provide a PMS number from the "Solid Coated" (C) Pantone Book. We do not match based on CMYK or other color libraries. Please note that color accuracy cannot be guaranteed; however satisfactory matches can typically be obtained.

Halftones or Detailed Artwork

Halftones (lighter shades of a screen printed color) are available and may incur an additional fee. Halftones may sometimes have unexpected results. If high resolution prints are a serious priority, we suggest adding an additional print of color instead. For example, gray can be printed 50% black halftone, Medium Gray, or PMS Matched Gray ink can be used.

Screen Changes, Arrows, or Copy Changes

In most cases a double sided arrow sign will require a screen change to print the arrow in reverse on the opposite side of the sign. Arrow Screen Changes are charged per color if more than one color will need to change.

Copy changes are available for an additional fee if the text on the sign will need to change part way through a production run.

Copy changes are charged per color if more than one color will need to change.

ARTWORK REQUIREMENTS

Artwork requirements vary depending on the product and production method. Here are some basic guidelines to help you along the way.

General Requirements

- Save as a PDF file
- Save at Actual Print Size
- Convert ALL fonts to Outlines or Curves
- Embed all files - NO Linked images!
- Title your artwork file the same as your PO#
- Use actual Pantone colors in your artwork to identify colors

Digital Printing

When sending art files for digital printing, please keep these points in mind:

- Raster or Vector artwork
- We recommend at least 200dpi at full print size
- File size should be kept at 100mb or smaller if possible
- Save your file in the CMYK color space
- Pantone colors OK in your file, but perfect matches cannot be achieved

Screen Printing

In order to avoid artwork charges for screen printing, please provide us with artwork that meets the following requirements:

- 100% Vector Artwork
- Allow for a 1/2" margin on signs 24x24" or smaller
- Allow for a 1" margin on signs 36x24" or larger

"Simplify" your artwork:

- No clipping masks
- Convert or expand all strokes to shapes or offset paths

Please Note: Some artwork may not be suitable for our production methods. Full bleed printing is available for an additional charge.

Please identify repeat orders! • We will advise if an order is not suitable for our production methods.
